As an educator trying to meet the needs of your students, do you often feel alone because you might be the only teacher in your building that teaches the content that has been assigned to you? GIRESD hopes to be able to meet your needs this year by establishing a Core PLUS Network for area educators. Content areas of focus include: Art, Music, Drama, Band, Health, Physical Education, Careers, Technology, World Languages, etc.

Facilitated by META 4 with support from the GIRESD Instruction Department, participants in this series will meet to learn and share best practices in their field, become familiar with areas of the Career and College Readiness Standards based on Michigan's adoption of the Common Core State Standards, with the ultimate goal of developing learning progressions around key concepts in the various content areas.

It is difficult to have a Professional Learning Community of one! Take advantage of this opportunity to meet with your colleagues from around the region to increase your knowledge and enhance your teaching skills.

Pencil into your calendar, February 7, and April 25.
